TEMPORARY CERTIFICATE OF OCCUPANCY

Permit number ________________  Address ________________________________

This building has not received all of the necessary final inspection approvals nor has a Certificate of Occupancy been issued in accordance with California Building Code as adopted by Sacramento County Building Code.

The California Building Code requires that no building or structure shall be used or occupied until the Building Official has issued a Certificate of Occupancy. The Certificate of Occupancy will be issued after all final inspections have been approved.

The California Building Code allows a Temporary Certificate of Occupancy to be issued when, in the opinion of the Building Official, the building can be safely occupied on a temporary basis.

This notice, when signed by the Building Official, shall serve as a “Temporary Certificate of Occupancy” and will expire on __________________________. Occupancy of this building, after the expiration date without required final inspection approvals, is a violation of the California Building Code.
